Checklist

| Understand the data | |
|---|--|
| Create a Problem Statement | |
| Develop Goal/Aim | |
| Check if the data is apt for multivariate analysis | |
| Prepare Data Dictionary with each column definitions | |
| Create a Project Plan using SPAP (S.M.A.R.T) | |
| Identify Independent/Dependent variables | |
| Perform Exploratory Analysis | |
| Raise relevant questions and check if data set is able to answer them | |
| Perform Basic Visualizations | |
| -Scatter Plot | |
| -Scatter Plot Matrix | |
| -Box-Plot | |
| -Histograms | |
| -Pie Chart | |
| -Bar Chart | |
| Detect outliers | |
| Identify distortions to correlations | |
| Calculate VAR & COV | |
| Remove Outliers | |
| Normality | |
| Transform the data if necessary | |
| Hypothesis Testing | |
| -T-test | |
| -Hotelling test | |
| -Levene Test | |
| | |
